Hudson People – Trip To Your Mind (DJ Friction Reworks)

Following the success of the 12" “Trip To Your Mind (The Reworks)”—where Delfonic and LTJ Xperience both brought their own magic to Hudson People’s disco/jazz-funk anthem—we’re back with a fresh twist: DJ Friction steps in for an official 7" rework, breathing new life into this cult classic in his own unmistakable style.

For those who’ve been following the story, you know “Trip To Your Mind” is a true favorite among DJs and collectors since decades, from its creative inception by the writer Reginald Hudson with the GI funk band Body Heat, to the original recording taking place in the late 70s in London that eventually paved the way for disco lovers to produce this recent string of reworks.

DJ Friction, a longtime fan and selector, has been playing the track for years. When he saw The Outer Edge working on new versions, he couldn’t resist getting involved. His mission? Create a 7" edit that’s compact, mix-friendly, and full of the track’s best moments.

Where the 12" reworks stretched out the groove with extended intros and club-friendly builds, Friction’s version keeps things tight and energetic. He adds his own drums, claps, synth touches, and some new vocal layers—combining the standout parts from both the original mix and the classic UK remix. The result is a punchy new take that’s perfect for DJs who want maximum impact in a short format, but still want all the funk and psychedelic flavor that’s made this song a dancefloor staple for decades.

And for collectors? The original 7" of “Trip To Your Mind” is notoriously hard to find—and pricey when it turns up. This new release finally makes it easy to spin a fresh, fully licensed version on 7" wax, expertly mastered for today’s systems.

Whether you were hooked by the Delfonic or LTJ Xperience edits, or you’re just discovering this tune for the first time, DJ Friction’s rework is a natural next step in the ongoing journey of “Trip To Your Mind.”

Artist: Hudson People
Title: Trip To Your Mind
(DJ Friction Rework)
Label: The Outer Edge
